With a friend we've been doing the top rated co op portal maps on the workshop All the ones we've done have been super high quality.. Note: to make some of these codes work, you need to enter this code into the console: svcheats 1.

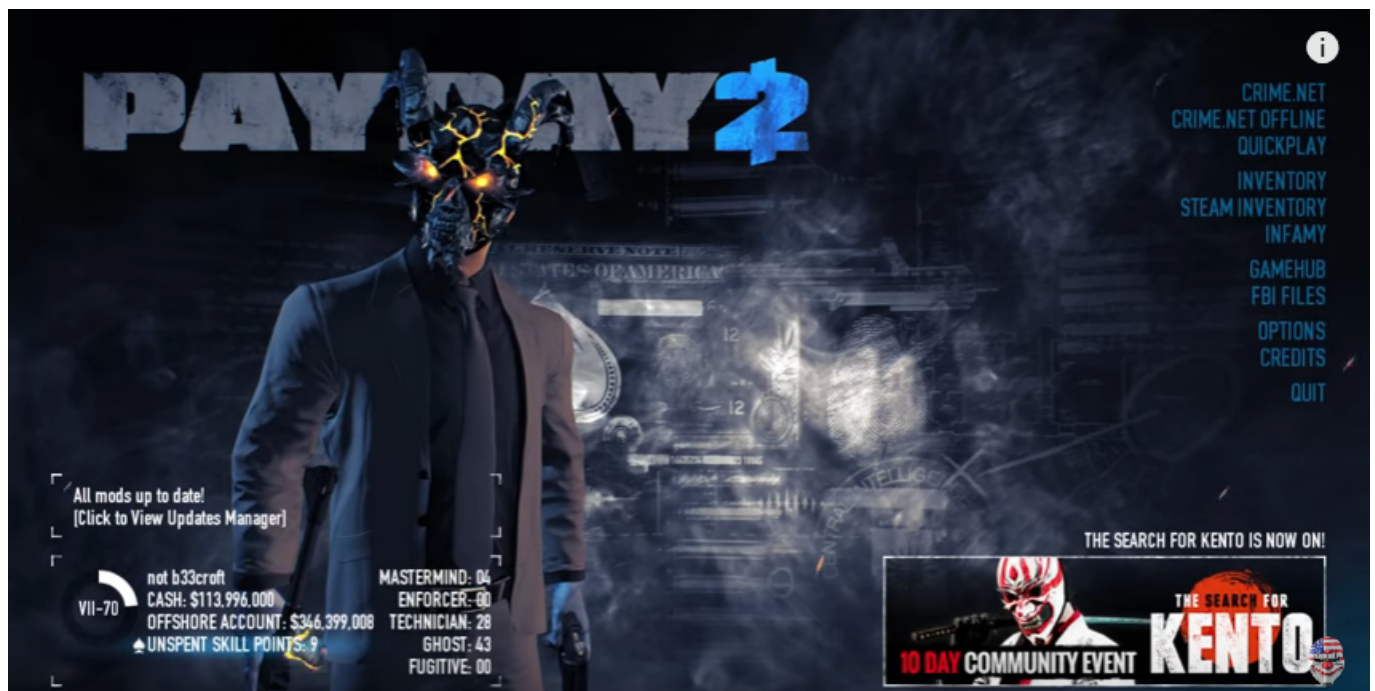

1. [best portal 2 coop maps](#)

All the ones we've done have been super high quality I have trouble recommending an individual one to you however, but you're pretty much good with any of these.. How to open the Portal 2 console on PC and enter commands From the main menu, go to Options - KEYBOARD/MOUSE - Allow Developer Console and set it to Enabled.
