This course covers the highlights of the traditional high school mathematics curriculum of algebra, geometry, trigonometry, and calculus, but it also introduces surprising features of the numbers 9, pi, i, and e; the Fibonacci numbers, and the numbers in Pascal's triangle.. The joy of mathematical magic This course aims to show how mathematics - from the simplest notions of numbers and counting to the more complex ideas of calculus, imaginary numbers, and infinity - is indeed a great source of joy.
